

“... it would be
a long time
before I would
think about
switching...”

I've been a customer of Total Swine Genetics since 1998. I have a PRRS naive herd and my veterinarian recommended TSG for the health of their boar stud.

Their product is very consistent and of high quality, and the semen performance is excellent. I moved to another supplier once to try something different and our performance just plummeted. We moved back after only a few months and it would be a long time before I would think about switching again.
